

## TissuePockets™ Seat Organizer

### Contents:

- 1 *TissuePockets*  
*Seat Organizer*
- 1 Cord with locking  
barrels

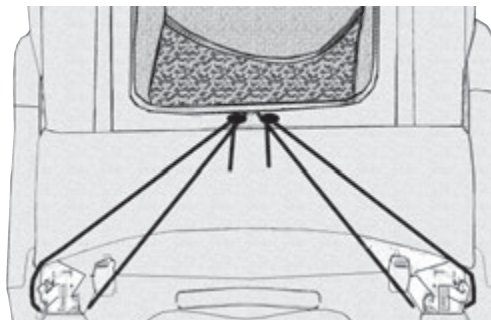

### Assembling:

- 1) Unfold
- 2) If cord is not already  
attached, slide cord  
through bottom loop  
of organizer
- 3) Expand pockets
- 4) Slide standard  
tissue box in middle  
pocket with tissues  
facing out and pull  
tissue through opening

### Installing in car:

- 1) Unsnap adjustable strap buckle, place organizer on back of seat
- 2) Wrap adjustable strap around headrest post(s), snap buckle together and pull strap tight to secure
- 3) Locate bottom cord and make sure barrel locks each have one hole empty and place the lock close to the bottom of the Tissuepockets
- 4) Take one end of the cord, wrap it around one of the tracks under the front seat and thread it through the empty hole in locking barrel. Pull tight to secure (can also be tucked into the front seat and wrapped around the outer edge and back)
- 5) Repeat on opposite side of same seat
- 6) Tie excess cord together or tuck under seat
