

StashAway™ Floor Trash Bin

Components:

- 1 StashAway Floor Trash Bin
- 2 Small stability braces
- 2 Large stability braces

Assembly:

- Expand sides of main compartment to create a box
- Locate slots behind webbing handles on the upper left or right of the *StashAway Floor Trash Bin*
- Insert one small stability brace end into the slot behind handle
- Slightly bend the brace and slide the other end in the opposite slot (*do not bend brace too far as it may break*)
- Repeat on opposite side of trash bin
- Next locate small pockets at base of trash bin on the left or right
- Insert one large stability brace end into one of the small pockets at the base
- Slightly bend the brace and slide the other end in the opposite slot
- Repeat on opposite side of trash bin
- Close cover and it's ready to use
