

TSA Accepted Combination Lock

To set your combination lock

1. Set dials to factory preset combination: 0-0-0
2. Pull up shackle to open lock (a)
3. Rotate shackle 90° counterclockwise then press all the way down (b). Hold down and continue to turn another 90° counterclockwise.
4. Turn the dials to your desired combination (c).
5. With new combination in place, turn shackle back 90°, lift up and return to original position. Push shackle down and spin dials to lock.

To Unlock: Spin dials so your combination appears on the side and lift shackle.

To reset: Repeat steps 2 to 5

(a)

(b)

(c)

Note: Combination can not be reset if it has been forgotten. Use the line below to record your new combination and keep in a safe place.
